

Service information

Reference no.: SDA_90706

Symptom

New Software 04.09.03 for Syntia Digital - Focus black, and Gaggia Brera (Eng).

Cure

INFO:

Type of machine: Syntia Digital / Focus black / Gaggia Brera Content: New Software 04.09.03

CURE:

Correction of the "fill beans" message to avoid the failure with full bean container. Only Syntia Digital with icons display:

New functions for the user (temperature, timer, contrast, water hardness, water filter, default parameters) in the user menu. Please inform the user about the new functions and user manual. Maybe enclose a sheet with the new functions from the user manual to the machine.

Additional the technician functions of test mode, steam out, display version, demo mode are implemented.

Test mode = function hot water + espresso button + switch on

Steam out = function hot water + coffee button + switch on

Display version = function hot water + aroma button + switch on

Demo mode = function button in middle position + aroma button + switch on

Please update all repairs with the new software 04.09.03 from the Saeco Service Center (SSC)

Please see the attached file in Eng.
