

Service information

Reference no.: SDA_97360

Symptom

NEW SOFTWARE FOR GAGGIA ACCADEMIA

Cure

INFO:

New software with changed hardware configuration in standby mode.

CURE:

Upload the new software V. 03.05.02

In Detail:

- Changed hardware configuration in standby mode to avoid the undesirable activation of AC loads.
- Add software thermostats to cut off the power with temperature above 140°C (for the coffee boiler) and with temperature above 160° (for the steam boiler).
