- Voltage : 100-240 V AC 50-60 Hz
- Power consumption : Motor depending
- Motor Voltage : 1,2 V
- Power system : Rechargeable
- Shaving heads : HQ177 - 4222 036 09810
- Display : Batt full/low  
Charge indicator  
Cleaning indication  
Replace shaving head indication  
Use additive indication  
Travel lock  
Demo mode
- SAP coding : HQ7782

## REPAIR INSTRUCTION

- After the cover (item 12) has been removed, it must be checked if its sealing has not been damaged.
- The cover (item 12) contains a sticker that is permeable to gas yet impermeable to water. This sticker may not be removed under any circumstances.
- Unsolder the motor connector and remove the PCB.
- To replace the motor or the driving unit (parts of item 6), screws B1 must be removed first. Then push the entire unit out of the housing (item 8) and check if its sealing is damaged.
- The entire driving unit is supplied as a single part to guarantee optimal sealing of the gear shafts.
- A replacement of the pump button is only possible after removal of the hair chamber (item 5).
- To guarantee that the shaver is completely watertight, only the original screws may be used.
- To charge the shaver only the original power plug may be used.
